Fit the *New* Universal-R

Version 4.0 suitable for dual voltage supply:
12V or 230V in one controller!

No more hunting around for a replacement controller

the Universal-R v4.0 replaces over **150 models** of refrigeration (and heating) controls

The new Universal-R v4.0 Dual Voltage is designed to make life easier!

- Direct connection for either 12Vac/dc or 230Vac power supply
- Easy to programme in 3 Rapid Set-Up steps (see below)
- 6 facia buttons for direct access to main functions including On/Off
- Illuminated icons for showing status
- v4.0 can now control twin evaporator defrost
- v4.0 with built in compressor/condenser protection onboard
- v4.0 includes dead band control (with or without defrost)

NEW SIMPLE 3 STEP RAPID SET-UP having connected up the probes and wiring:

- 1**   Press the 'DOWN' key for 3 seconds to automatically detect and set the probe type (PTC or NTC)
- 2**   Press the 'AUX/tc' key for 3 seconds to select the type of control you wish the Universal R to be
- 3**   Adjust the Set Point

New version 4.0 with added features:

- Dual 12V/230V power supply
- 6 buttons for direct actions
- Twin evaporator defrost control
- Compressor protection
- Suitable for heating applications
